Student Orientation on Communication and Teamwork

Dear Students,

Presidency University is pleased to announce that a student orientation session led by Assistant Professor Dr. Mery Biswas is scheduled to take place on February 26th, 2024, at 3:00 pm within the university campus. The session will focus on the importance of successful communication and teamwork skills for academic and professional success.

The significance of effective communication in various aspects of life, including academic, professional, and personal interactions will be emphasized upon. The students will understand process of communication, which involves the exchange of ideas, thoughts, sentiments, and emotions through writing, gestures, speaking, or behavior. The importance of the role of communication in teamwork and collaborative projects, including the importance of clear and concise communication for successful outcomes will be dealt with.

Additionally, the concept of encoding and decoding messages, where an encoder (sender) delivers a message to a receiver (decoder) via a medium or channel, and the receiver processes the data and sends back appropriate feedback or response will be delivered in a concise way.

This orientation session is an annual event organized to facilitate new students in their journey of education at Presidency University. It provides valuable insights and guidance on communication and teamwork skills, which are essential for academic excellence and personal development.

For further information or inquiries, please contact NSS Cell.

Warm regards,
Prof. Sumita Saha

4. Orientation of students/ team work/ Report Writing

The student orientation was led by Assistant Professor Dr. Mery Biswas. She emphasized on the need of successful communication through all possible medium. She elaborated further the process of exchanging ideas, thoughts, sentiments, and emotions through writing, gestures, speaking, or behaviour as communication. During the communication process, an encoder (sender) delivers a message to a receiver (decoder) via a medium or channel. The receiver decodes the message, processes the data, and then uses the medium or channel to send back the appropriate feedback or response. It was a very successful event and this is practised annually with all the new comers to facilitate them through their journey of education in Presidency University.
